MONTHLY PLANNER FOR NOVEMBER
Grade III (2021-2022)

“GREAT SATISFACTION COMES FROM SHARING WITH OTHERS”

Dear Parents,

Greetings!

The Value for the month of October was sharing and caring. Students of Grade III celebrated ‘Caring and sharing week’ in the last week of October. Satisfaction comes from sharing. Children have understood the importance of sharing with others so that they can make and keep friends, play cooperatively, take turns, negotiate, and cope with disappointment. Sharing teaches children about compromise and fairness. They learn that if we give a little to others, we can get some of what we want too. To make our students understand the importance of sharing and caring and for making this week interesting and fruitful our students had done many activities.

World Post Office Day is celebrated every year on 9th October. Our students had celebrated the day by participating in an activity wherein they designed their own postcard to spread the importance of the postal sector in people’s and businesses’ everyday lives and its contribution to the social and economic development of countries.

Freedom fighters have always inspired and motivated others to fight against injustice. They made people aware of their rights and their power. It is all because of the freedom fighters that we prospered into a free country free from any kind of colonizers. To spread the awareness for the same, CBSE had organized an activity “Azadi Ka Amrit Mahotsav” in which students had illustrated beautiful posters on freedom fighters.

India is known as a land of festivals and celebrations. Many of the Hindu festivals are related to great epics like Ramayana and Mahabharata. Dussehra is one of the main ones. Dussehra is also called Vijayadashami and is celebrated as the victory of Goddess Durga over the demon Mahisasura. In fact, the main message that it gives is the victory of good over the evil and success of truth over lies. Our students had enjoyed and celebrated this day by making an effigy of Ravana.

The simple act of saying 'THANK YOU' can lead you to a happier life. When you express your thankfulness to others, it not only makes others feel great but also makes you feel great. In the continuation to this, our students had made a “THANK YOU MY FRIEND” card for their friends.

Bucket filler is someone who uses acts out of kindness and loves to make another person feel better. This could be anything! A bucket filler could say a kind word to someone who looks sad, or they could help a friend in need. It’s important to be a bucket filler simply because it makes others feel good. People feel bad when their buckets are empty. Our students participated in this activity and they filled their family members’ bucket with some ‘I CARE CARDS’.

Donation drives are a great way to help needy and poor people. These drives are organized by volunteers who lend a helping hand to needy people. Donating your old items or goods help people who are less fortunate. Items that are no longer being used by you can go to thrift stores or charities that may use them to help the poor. To make our students connect well to this drive, our students had donated different items to the needy and poor people around their residence.

EVS: My Favorite Food

Students of Grade III had discussed different types of food, different eating habits, different sources of food and importance of food as a part of their curriculum. In collaboration to the discussion, students had beautifully showcased their understanding by conducting a 'Show and Tell' on 'My favourite food'. Some students presented using a collage while some presented by showing real food.

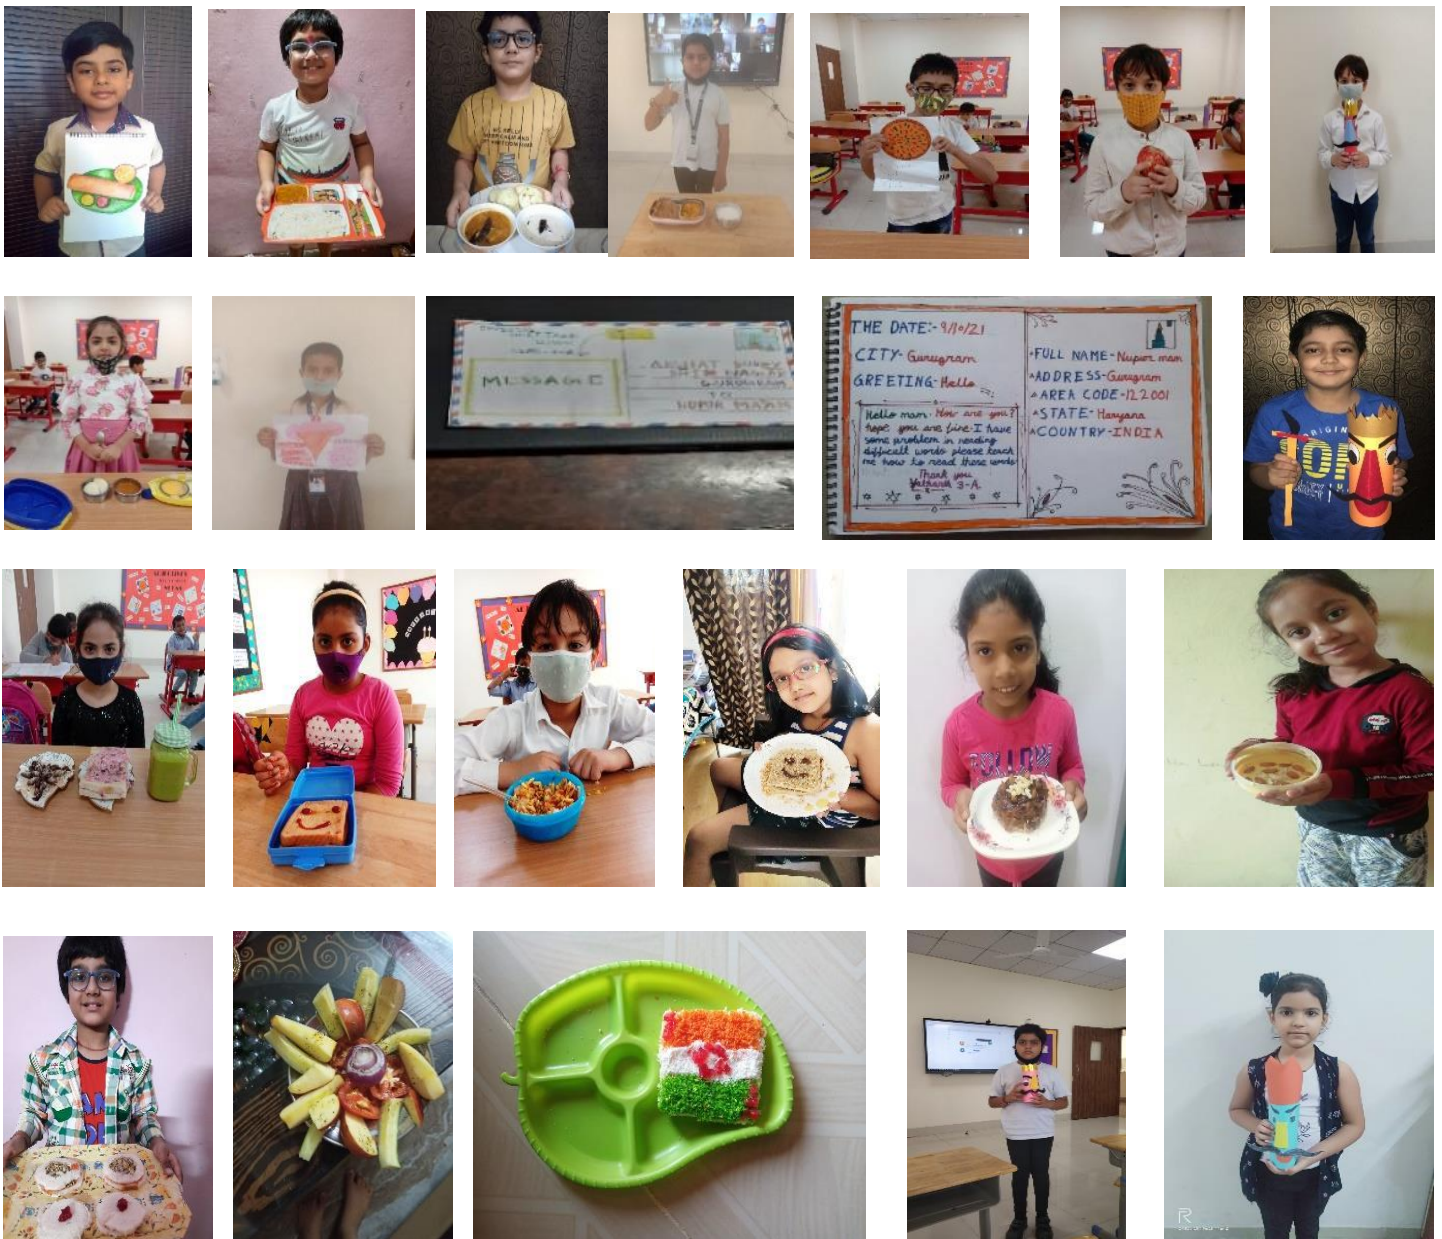

Maths: Mass

Students of Grade III recapitulated about Mass. Mass refer to the weight of an object. It is measured in grams (g) and kilograms (kg). To revisit the concept of Mass, students did an activity wherein they observed and read the weight of different items from the packets.
