MONTHLY PLANNER FOR DECEMBER
Grade III (2021-2022)

'Sharing is caring, caring is loving, and loving is living'-Minerva

Dear Parents,
Greetings!

The Value for the month of November was sharing and caring. It is important to care and share because if you do, other people would follow in your footsteps and the world would be a happier place. It affects people in a good way because if you do something good to someone, they will feel loved and most likely do something good for someone else. To make students understand the importance of Caring and Sharing, students of Grade III B had presented a beautiful assembly on Caring and Sharing. They all had participated in it with full enthusiasm.

Diwali is India's most important festival. It's a time to celebrate the triumph of light over darkness, knowledge over ignorance, and good over evil. The lights and diyas are present everywhere signifying the eradication of dark shadows and evil. All the people celebrating and praying together create an atmosphere of love and purity. Our students of Grade-III A had presented an assembly on the same and they depicted the importance of Diwali with skit, dance song and speech.

Ek Bharat Shreshtha Bharat programme aims to enhance interaction & promote mutual understanding between people of different states/UTs through the concept of state/UT pairing. To spread the awareness for the same, CBSE had organized an activity in which students had illustrated beautiful posters on folk Art of Telangana.

National Mission for Clean Ganga (NMCG) celebrates Ganga Utsav every year to mark the anniversary of announcement of River Ganga as the 'National River'. To bring awareness about 'Ganga Utsav River Festival' this year in schools CBSE had organize a poster making activity for the students on 2nd November 21.

Students of Grade III were introduced with the concept of Capacity. Capacity is a measure of how much space something takes up measure capacity in liter or milliliter. We measure small quantity of liquid in milliliters and large quantity of liquid in liters. To understand the concept of Capacity, students did an activity wherein they observed and read the capacity of different items from the packets like capacity of mustard oil bottle, cold drink, yogurt etc.

Students also participated in a fun 'Mapping your Room' EVS activity, in which they made a map of their own room including windows, curtains, bed, study table, cupboard, etc and coloured it as well. They made a legend as well, which helps others to understand what exactly is there in the map.
