

IMPERIAL HERITAGE SCHOOL, SEC-102, GURUGRAM
MONTHLY PLANNER FOR FEBRUARY AND MARCH
Grade XI-SCIENCE (2025-2026)

“The purpose of education is to replace an empty mind with an open one.”

— Malcolm Forbes

Dear Parents,
Greetings!!

February, the second month of the year, is a time of renewed energy, reflection, and meaningful observances. It is marked by important national and international days such as World Cancer Day and National Science Day, encouraging awareness, compassion, and scientific thinking among students. With pleasant weather and a spirit of enthusiasm, the month also celebrates love, friendship, and kindness. Various academic and co-curricular activities continue, fostering creativity, learning, and personal growth as students remain actively engaged in school life.

January began on a refreshing and hopeful note, bringing with it new goals, renewed motivation, and a spirit of fresh beginnings. Students returned to school with great enthusiasm after the winter break and actively participated in various academic, cultural, and co-curricular activities. From interactive classroom sessions to creative projects, the month was filled with learning, joy, and positive energy, making it both productive and memorable.

The PTM was successfully conducted and parents were apprised of their ward’s academic progress through the Unit Test III results. The students were also given the term end exams datesheet, signalling the onset of assessment and graduation to the next class.

To commemorate **National Youth Day**, the students of Grade XI Science participated in a Youth Pledge activity, reaffirming their commitment to the values preached by Swami Vivekananda. Through this pledge, students reflected on fearless thinking, moral strength, and responsible citizenship, reinforcing their role as conscientious and compassionate future leaders of the nation.

“It is blood alone that can pay the price of freedom.” – Netaji Subhas Chandra Bose

To commemorate **Netaji Subhas Chandra Bose Jayanti**, the students of grade XI Science presented a well-researched paper analyzing the political relationship between Netaji Subhas Chandra Bose and Adolf Hitler, critically examining diplomatic strategies within the historical context of World War II and Netaji’s unwavering objective of India’s independence. This activity enhanced historical understanding, critical thinking, creativity, and value-based learning while fostering respect for India’s freedom struggle and inspiring responsible citizenship.

Under CBSE activity a **Road Safety Mass Pledge** was conducted in the school premises to create awareness about safe road practices among students and staff. During the pledge, everyone committed to following traffic rules, wearing safety gear, avoiding distractions while walking or driving, and respecting pedestrians. The programme aimed to instill a sense of responsibility and discipline on the roads, helping students understand their role in preventing accidents and ensuring safety for all.

Republic Day- India celebrates **Republic Day on 26 January** to commemorate the adoption and enforcement of the Indian Constitution in **1950**, marking the nation’s transformation into a **sovereign, socialist, secular, and democratic republic** governed by its own laws, replacing the British-era Government of India Act. The day

upholds the constitutional values of **justice, liberty, equality, and fraternity**, empowering citizens to choose their own government. Unlike **Independence Day (15 August)**, which marks freedom from British rule, Republic Day celebrates the establishment of India's constitutional democracy. To mark this occasion, **Grade 1 students presented a special assembly** that beautifully instilled feelings of **patriotism and national pride** through melodious songs, a meaningful skit, and vibrant dance performances. The assembly began with the **Principal's flag hoisting**, followed by the **National Anthem**, setting a solemn and inspiring tone for the celebration.

IHS students also celebrated **Basant Panchami** with great joy and enthusiasm through a special assembly. The assembly highlighted the importance of Basant Panchami as a festival that marks the arrival of spring and honours Goddess Saraswati, the goddess of knowledge and wisdom. The children came dressed in yellow, symbolising energy, happiness, and learning. They sang a melodious song, and performed a dance about the festival with confidence. The assembly concluded with a message encouraging students to love learning and respect knowledge. The celebration was colourful, meaningful, and enjoyed by everyone present.

Assessment of Speaking and Listening Skills was conducted as a part of the **English** subject enrichment activity to assess their proficiency level in the language with the objective that they are able to interpret what is being said and are able to express themselves well.

In **Physics lab** students performed the Simple Pendulum experiment. The experiment confirms that the time period of a simple pendulum increases with an increase in the length of the pendulum and remains independent of the mass of the bob for small angular displacements.

Students during the **Chemistry lab** carried out paper chromatography to separate the ink mixture and learn about the concept of chromatography as a purification technique.

Final Term Examination are approaching and February month plays a pivotal role in consolidating the preparations and focusing on revision. We wish our students best of luck for their future endeavours.

The value of the month '**Respect**' was inculcated by the mutual discussion that how we should respect our elders and all community members that we see around us.

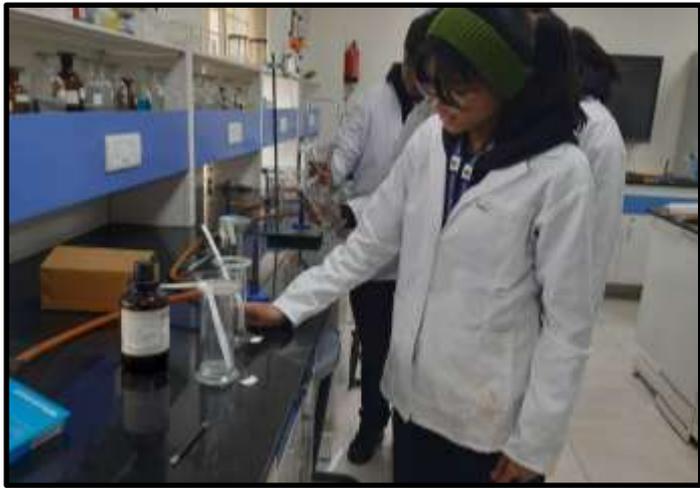

IHS NEWS

Proud Moment for Imperial Heritage School

1. At the School Gurus Leadership Meet 2026 of school heads from South West Delhi, Faridabad and Gurugram, Helping Gurus honoured our Principal, Neelu Ma'am, with the ***EduGuru of the Year 2025–26** award in the category of **Innovative Collaborative Teaching Strategies*** on 10 January.
2. NIIT University – The University of the Future – presented a Certificate of Appreciation to Ms. Neelu Sharma, for her active participation in the session ***Technology in Transformative Leadership: Leveraging AI*** during the Principals' Conclave, held on 17 January.
