MONTHLY PLANNER FOR FEBRUARY AND MARCH
Grade VII (2021-2022)

“Success consists of going from failure to failure without loss of enthusiasm.”

– Winston Churchill

Dear Parents,

Greetings!

“Go to the winter woods: listen there, look, watch, and ‘the dead months’ will give you a subtler secret than any you have yet found in the forest.”

— William Sharp (writing as Fiona Macleod), Where the Forest Murmurs...

The month of January has passed by quickly. Compared to this time last year, we have had heavy hits from Old Man Winter so far. February is the border between winter and spring. The month of February should be another busy one. Deep and rich learning will be explored in the virtual classrooms.

As very rightly said by Marc Parent, “If January is the month of change, February is the month of lasting change. January is for dreamers... February is for doers.” The month of February is crucial for students appearing for their examinations. It plays a pivotal role in consolidating the preparations done by the students so far. Therefore, our first advice to students is to prepare a proper schedule for studies, where all the subjects should find appropriate representation. Make sure there is space for recreation in this timetable, but in small measure.

The month of January was associated with completion of the academic planning and well-designed cocurricular activities. **World Hindi Day** was observed on 10th January to honor the language. The theme of this day was to make Hindi a part of public opinion, although it doesn't necessarily mean that one has to leave their mother tongue. India celebrated 125th **Birth anniversary of Netaji Subhash Chandra Bose** on 23rd January. To honor and remember Netaji's indomitable spirit and selfless service to the nation, our Grade VII students made his sketch and highlighted slogan given by him. **National Girl Child Day** is observed every year in India on 24th January to promote awareness about the rights of a girl child and to promote the importance of their education, health, and nutrition. Grade VII students paid tribute to famous Indian women from different fields and enunciated their contributions. India celebrated its **73rd Republic Day**, the day its constitution came into force. The Republic Day, falling in the 75th year of Independence, was celebrated as 'Azadi Ka Amrit Mahotsav' across the country. Our students made tableau of various states. Students also celebrated **Mathematics week**. Mathematics Week sets out to encourage children to pursue Mathematics by promoting a more positive and inclusive approach.
