

IMPERIAL HERITAGE SCHOOL, SEC-102, GURUGRAM
MONTHLY PLANNER FOR JANUARY
GRADE-VII (2023-2024)

"A little progress each day adds up to big results ."- Satya Nani

Dear Parents,
Greetings!!

As we bid adieu to December and step into the New Year, let's learn a few interesting facts about January. The month of January (in Latin, 'Lanuarius') is christened after Janus, the god of beginnings. January is the first month of the year in the Julian and Gregorian calendar. The first day of the month is known as New Year's Day. Invariably, it is the coldest month of the year in most of the Northern Hemisphere and the warmest month of the year in most of the Southern Hemisphere.

As we leap into the last quarter of the academic year, let's review our accomplishments and shortfalls during the learning journey and reinvigorate the pledge to achieve stated goals. Let us all revisit our goals and relentlessly pursue to fulfill our goals.

During December, the teacher-learner fraternity celebrated its **3rd Annual Day -'Navras', Fit India Movement, World Conservation Day, Bhartiya Bhasha Utsav, and CBSE Expression Series**. A plethora of activities were organized to develop the multifarious personalities of the students. The students were engaged in numerous scholastic and co-scholastic activities. Various class activities and competitions elicited the wholehearted and enthusiastic participation of the students.

Annual Day Celebration: *"Emotions are not a choice. What is a choice is what we do with them."* - Sharon Salzberg.

Imperial Heritage School showcased its **3rd Annual Extravaganza, नवरस-भावनाओं का समन्वय**. It was the depiction of nine emotions that everybody has to pass through at least once in the course of life. The nine emotions showcased were Vatsalya (mother's love), Adhbhut (wonder), Veer (courage), Hasya (laughter), Shaant (peace or silence), Bhayaanak (Terror), Vibhats (Disgust), Raudra (anger) and Shringaar (love). These emotions were beautifully depicted through theater and dance, interwoven with breathtaking costumes and glittering lights. The guest of honour for the evening was Junior Warrant Officer (JWO) **Deepak Kumar, Holder of the World Championship Medal in Shooting**. The third edition of the school magazine, **Abhyudaya**, was released by the Chairman, Mr. Satpal Dahiya along with the editorial board. The sterling achievements and motivational talk was an inspiration for the students. The efforts of the students and teachers, spearheaded by the Principal, Ms. Neelu Sharma, was highly appreciated by parents and left them awe-struck with the brilliant performance.

World Conservation Day was celebrated at IHS to impress upon the importance of energy and its conservation. The students of Grade VII conceptualized and prepared Energy Slogan/Banners to create awareness about energy saving/conservation.

Fit India Movement was launched by our Honourable Prime Minister with a vision to include fitness as an integral part of our daily lives. The mission of the movement is to bring about behavioural changes and have a more physically active lifestyle. Towards achieving this mission, students participated in specially organized games (like: football, kho-kho) in their PE classes.

CBSE Expression Series Activity (Bhartiya Bhasha Utsav) : A short video on the life and works of Dr Subramaniam Bharti was screened for the students of Grade VII, to inspire them and make them aware about the monumental work done in the field of Hindi Bhasha.

National Mathematics Day: National Mathematics Day was celebrated with enthusiasm at our school, commemorating the birthday of the legendary mathematician Srinivasa Ramanujan. Celebrating the day with various mathematical activities and events is a great way to instill interest and appreciation for the subject among students. Intra-class quizzes are excellent for promoting healthy competition and enhancing students' problem-solving skills. It not only tests their knowledge but also encourages them to think critically and apply mathematical concepts. A Quiz was conducted for Grade VII .

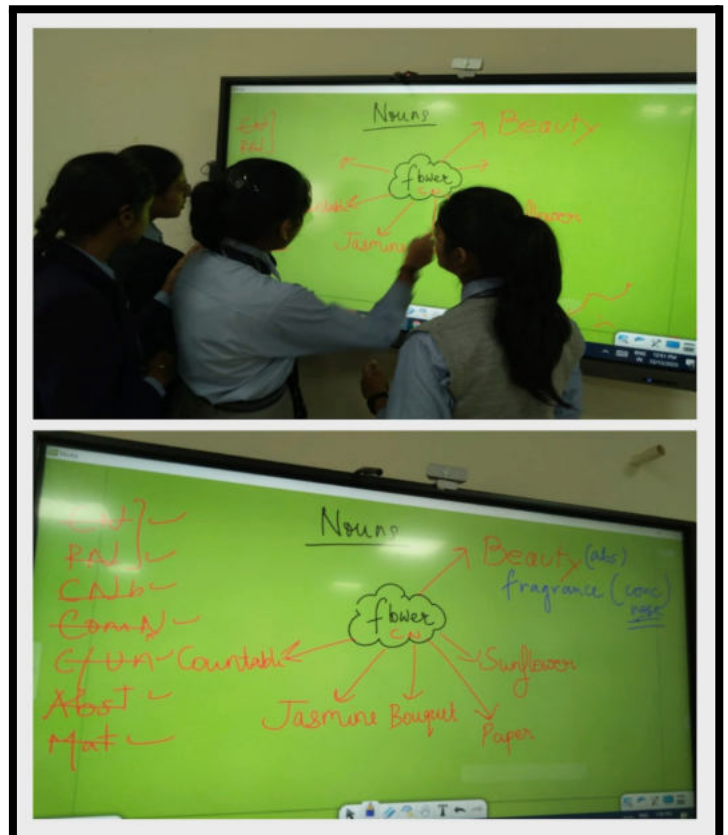

The celebration not only adds an element of fun but also highlights the practical importance of mathematics in day-to-day life. It's crucial for students to understand the relevance of mathematics beyond the classroom and recognize its applications in various aspects of their lives.

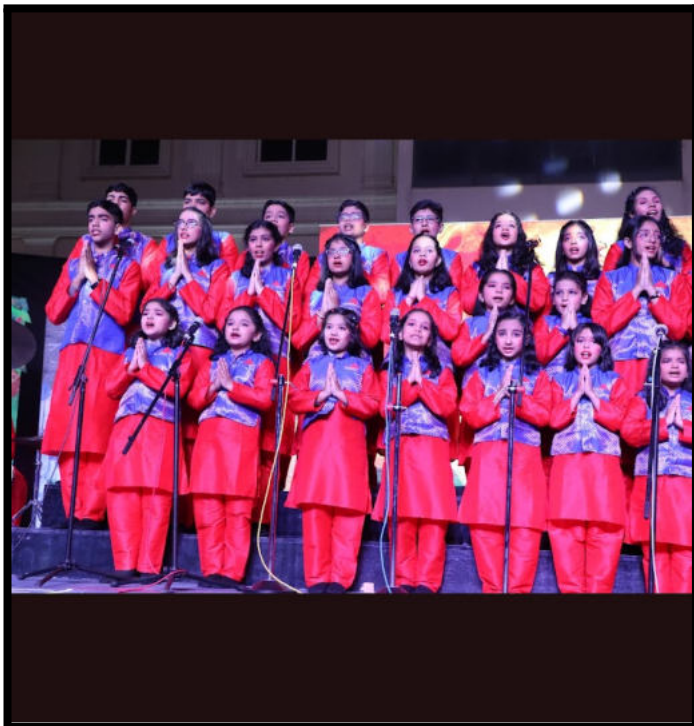

Overall, these activities helped in creating a positive and supportive environment for learning mathematics, fostering a love for the subject among students.

Subject Related Activities: In **Science**, students studied the internal structure of the flower involved in the process of plant reproduction. In **English**, the concept of nouns was initiated and revised as the students recollected its various types. The students brainstormed on all possible forms and words connected with one common noun and figured out how many nouns could be made with one word -i.e. 'Flower'. Thorough revision including oral tests, discussions, written tests, and quizzes was conducted in the class for the students to prepare for the UT-III examination in all the subjects.

Values are an integral part of the curriculum. In order to promote the value of the month '**Compassion**' in the classrooms, the students of Grade VII were encouraged to embrace diversity, respect differences in opinion and help friends. The students were motivated to use polite words & expressions rather than offensive words while conversing.
