

IMPERIAL HERITAGE SCHOOL, SEC-102, GURUGRAM
MONTHLY PLANNER FOR JANUARY
GRADE-VIII (2023-2024)

“Books are the quietest and most constant of friends; they are the most accessible and wisest of counselors, and the most patient of teachers.”

– Charles W. Eliot

Dear Parents,
Greetings!

Team IHS wishes you all a very happy and prosperous new year!!

Cheers to health, happiness, and prosperity in 2024!! May the next year bring us closer to our own goals and propel each one of us to the pinnacle of accomplishment. As we step into the new year, let us remember the importance of hope, resilience, and a positive attitude.

The much-awaited event of the current academic session ushered in the month of December. **The Annual Function** is a vital event by which the students get a chance to display their talents in front of a big audience. A rainbow of colors unfurled on the stage as Imperial Heritage School celebrated its 3rd Annual Day amidst great zest, vibrancy, and elation. The act was a creative depiction of nine emotions of life, depicted elegantly through a combination of acting and dancing. The grand finale had the parents joining in and the show ended on a very high note. The third edition of the school magazine, **Abhyudaya**, was also released by the Chairman, Mr. Satpal Dahiya along with the editorial board.

Fit India School Week was observed from 12th December to 15th December 2023. To promote a healthy and active lifestyle, Imperial Heritage School conducted various popular sports & fun games for the students. Overall, it was a fun-filled week for the students.

‘World Conservation Day’ aims to promote sustainable practices, and the preservation of natural resources; and thus, acknowledges that the foundation for a healthy society is a healthy environment. On this occasion, Grade VIII students made an Energy Conservation Banner as a part of class activity.

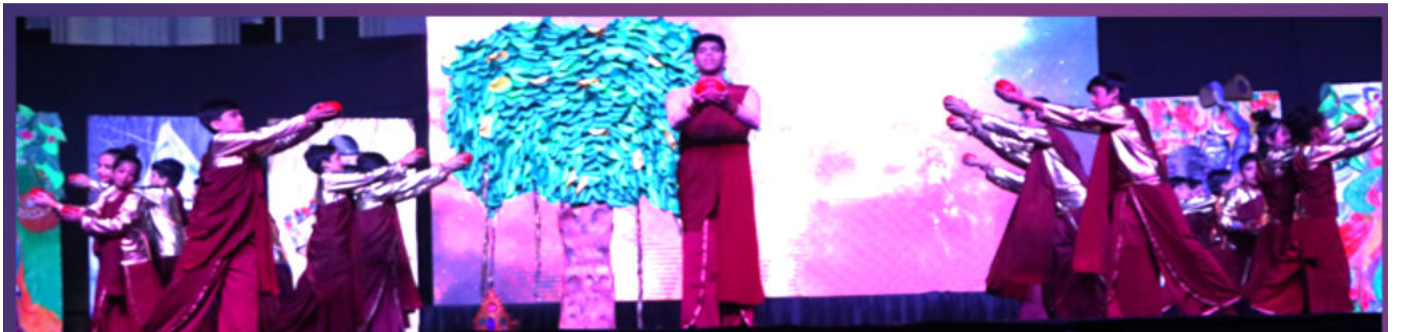

Unit test is an evaluation tool for the measurement of knowledge, achievement and improvement of the students by giving feedback. After the successful Annual Function, students geared up for academics, and UT III was conducted. Thorough revision including oral tests, discussions, written tests, and quizzes was conducted in the class for the students to prepare for the UT-III examination in all the subjects.

Students enthusiastically participated in **‘Hindi Bhasha Utsav’** and saw Subramaniam Bharati’s biography.

In **Science**, students practically understood the working of electrolytic cells and the process of electroplating. They also learned the applications of the chemical effects of electric current.

‘National Mathematics Day’ was celebrated with enthusiasm to commemorate the birthday of the legendary mathematician Srinivasa Ramanujan. Intra-class quizz was conducted, which is an excellent way for promoting healthy competition and enhancing students' problem-solving skills. It not only tests their knowledge but also encourages them to think critically and apply mathematical concepts.

The value of the month was **‘Compassion’**. Compassion is the feeling that arises when you are confronted with another's suffering and feel motivated to relieve that suffering. The significance of the same was discussed along with the class activity to promote emotional safety, reduce negative behaviors, and improve academic performance and social skills.
