MONTHLY PLANNER FOR JANUARY
Grade I (2021-2022)

Education breeds confidence, confidence breeds hope. Hope breeds peace.

Dear Parents, Greetings!!

A very happy and prosperous new year to all.

The month of December proved to be a month full of excitement and learning new concepts. The concept of measurement was introduced, where children learnt about the non-standard units like cubit, hand span, foot span and stride. They enjoyed measuring the size of their rooms, tables etc. The topic of 'Sky' was introduced through a magic painting. They drew day and night sky in their notebooks and later learnt how day and night happen. We taught them about the Solar System as well. Now, students are able to identify the planets and determine the position of the planets from the sun. The students enjoyed the story of 'Means of transport'. A class competition was conducted on the same topic to reinforce the concept. All students made very creative 3D models of different modes of transport. The best part of this competition was that they used waste material like old boxes of soaps, matchsticks etc. They had created the model of different types of houses with the help of clay for learning the topic 'Houses we live in'. The concept of is, am and are and has/have was also taught to them.

During the month, we celebrated 'World Mountain Day', where as a home activity, children created beautiful scenery using clay, artificial plants, sand etc. Children learnt about different types of crops during 'Kisan Diwas' and created a collage differentiating cereals, pulses, vegetables and fruits. On National Mathematics they did multiplication in a fun way. To evoke feelings of nationalism and patriotism in children 'Vijay Diwas' was celebrated. Children created a colourful poster to show respect towards our brave soldiers. Grade IVB presented a wonderful assembly on Christmas through which children spread positivity everywhere and a cute Rudolf the Reindeer was made using handprint technique. Experiment nurtures intellectual curiosity, helping children acquire new ways of asking questions and understanding the world, with this objective Science Day was celebrated where children did an experiment on how sound travels. It was a fun learning and teaching experience for the students and for the teachers.

IHS NEWS:

Our Inter School Event 'Maadhyam' was a great success. Vamika Shankla and Shiya Thakur from Grade I won first position in the event 'Losing...lost....gone forever'.
