Dear Parents,

Greetings & Happy New Year!

Being the first month of the new year, there are a lot of expectations riding on January. New Year mornings in January feel like the best time to begin planning all that we have ever wanted from the year, and this is also usually the time when we make resolutions.

In the month of December, students of Grade VIII undertook various activities. The month started off with the UT III assessment followed by the “Sports Week” activities where students took part in various races and games. Farmers are considered the backbone of India’s economy and they are a major factor behind rural prosperity. As a mark of gratitude to them, “Kisan Diwas” was celebrated by the students through the activities like “to draw the different tasks of a farmer in a field from tilling the soil to harvesting the crop’. Biography - To write a small paragraph on the life of Kisan of India, Chowdhary Charan Singh and Power Point Presentation on the various problems faced by the Indian Farmers. India observes the National Mathematics Day every year on 22nd December since 2012. The day is celebrated to commemorate the birth anniversary of the great mathematician Srinivasa Ramanujan. This day was celebrated by the students, where a class quiz was conducted in the form of brain teasers. The value of the month “Courage” was explained to the students through video and stories on courage.

Our school hosted “**Maadhyam- Latitudes and Longitudes and Everything in Between**”, Showcasing Geography on 28<sup>th</sup> December 2021. The Interschool Competition was based on different aspects of Geography- animals in the zoo, extinct animals and birds, evolution of homosapeins, a smart city, tribal fusion dance and plastic in the ocean and over 25 leading schools of Gurgaon participated. Chhavi, Aditri Malik and Tejas Lakhera of our class participated in tribal fusion dance and secured the Ist position.
