MONTHLY PLANNER FOR JULY
GRADE IV (2023-2024)

Books are mirrors: you only see in them what you already have inside you.”
– Carlos Ruiz Zafon

Dear Parents,

Welcome back! I hope you all had a fine vacation and are looking forward with enthusiasm to the new school year. We hope you had a great break, full of excitement, fun and also some relaxation.

Returning to school to a new academic session always has mixed feelings; both excitement and apprehensions. To make the students comfortable, a special Welcome Assembly was presented by the teachers, which set the environment for the happy times ahead. Students also engaged in a welcome activity which gave an opportunity to know their teachers and peers a little better. The day ended on a high note as the corridors rang aloud with the chatter and laughter of the young ones.

The month of April was full of exciting and engaging activities. It played host to Environment week which has a special significance in today's world as it makes everyone aware of the causes and consequences of global warming and climate change. Students participated in various activities and competitions through which they became aware of the grim situation and understood that every small effort, when put together, can bring about a big change. The students made articles using recyclable materials and indulged in a healthy cooking without fire activity to promote healthy living. They also participated in an Intra Class Poem Recitation Competition on Save the Environment.

Students also observed Baisakhi where they made colorful paintings to showcase the spirit of the festival. They celebrated World Day for Safety and Health of Workers by exploring different safety measures in the school like fire alarms, fire extinguishers etc. Students were also taken to infirmary to gain knowledge about the first aid box and how to use it during an emergency.

CBSE First Expression Series for the session 2023-24 was organized on the theme Skill Development in India from Local to Global in which students wrote about famous personalities who had achieved success through his or her skills or they wrote on Skills a Child Needs to Excel.

Value of the month was **“RESPECT”** for living things. Different stories on respect through videos were shown to the students followed by class discussions regarding how and why students should respect their elders, teachers and all living things.

The academic front made learning interesting through various hands-on activities in all the subjects to understand various concepts. In **MATH** an activity was done on Roman Numerals where students displayed various Roman Numerals on A3 sheets using ear buds. In **EVS**, while studying the chapter- Feeling Around with Eyes Shut, an activity was done on sense organs by using flashcards to recap prior knowledge. This was followed by a blind fold activity where the students tried to touch, feel and recognise objects.

In addition, the month of April also hosted an Inter House Competition and Intra Class poem recitation competition to celebrate Environment Week with the aim of developing their awareness about the environment issues. Students participated enthusiastically and won everyone's heart with their excellent performance.

On the last working day students enjoyed a class party with home made snacks and food and shared with their friends and teachers.
