CHILDREN'S DAY CELEBRATION

Every child is a different kind of flower,
and all together, they make this world a
beautiful garden.

“Happy Children’s Day!”

If there is something that all of us like, it can be nothing else but children. They conquer our hearts with their angelic eyes and innocent smiles. It makes us realize that may be this is the way God wanted us all to be. IHS celebrated Children’s Day on 14th November, 2018. The program started with an informal interaction between the students and the teachers. Respected Principal Ma’am addressed the children and expressed her love and care towards them.

The school had organized a magic show on this occasion. The magician showed many tricks using illusions that made the children and teachers watch him with rapt attention and excitement. The magic wand, the magic words and the commanding voice of the magician kept everybody mesmerised. The students and teachers were left guessing as to how the tricks worked. The air resounded with the continuous applause.

It was a day for the children and their smiles were an indication of the fun they had.

SPORTS DAY

'Winning is not everything
But making the effort to win is.'
With this spirit IHS hosted its first Annual Sports Day on 15th and 16th November, 2018. The event was high on energy and the school ground was brimming with zeal, passion and excitement.

The event was witness to students participating in large numbers in various innovative races like Shuttle race, Sprint race, Huddle and Zigzag race, Balancing race, One Legged race and many more. Students cheered for their teams with high spirit.

The closing ceremony commenced with the march past to honour the chief guests Mr. Satpal Dahiya, Honourable Chairman and Mr. Yogesh Dahiya, Honourable Vice President, in the presence of Principal Ma'am, Mrs. Indu Paruthi. It was followed by a brilliant football match played between Team Phoenix and Team Dynamos. The match was won by the Team Dynamos.

No sports event is complete without the prize distribution ceremony and medals and trophies were given to individual and team winners. The overall sports trophy was won by the Team Dynamos .

The aim behind the whole event was to inculcate the spirit of sportsmanship and fondness for sports in students.

IMPORTANCE OF DISCIPLINE

“A disciplined mind leads to happiness and an undisciplined mind leads to suffering.”

Discipline has a major role in a student’s life and the school is the second place after home where a child learns discipline.

Discipline brings stability and structure into a person’s life and it teaches a person to be responsible and respectful. The observance of well – defined rules is the basis of a global society. It promotes good human behaviour and makes the society a better place to live in.

The ability for an individual to have self- restraint allows him/her to behave in a dignified manner. Without discipline, it is very difficult to lead a happy life in society. Discipline is everything which we do in the right way in right time. It leads us on to the right path.

A disciplined person always chooses the best course of action irrespective of other’s wishes. Honest behaviour is another form of discipline, it can be described as when one’s value and aims are aligned.

“Discipline is the bridge between goals and accomplishment.”

WORKSHOP ON TEACHING TECHNIQUES

A teacher is a learner before he or she is a teacher.

The spirit of improving oneself is what defines an educationist. Keeping this in mind, it is essential for teachers to constantly upgrade themselves and constantly learn. A workshop on enhancing teaching techniques was organised for the teachers of Imperial Heritage School on 2nd December, 2018. The focus of the workshop was on enabling teachers to develop their ability to help students. Today’s teacher is more as a facilitator who promotes self learning and helps students develop critical thinking skills and retain knowledge, that leads to self actualisation.

FUN AND ACADEMICS GO HAND IN HAND

“All work and no play makes Jack a dull boy”.

Participation in extracurricular activities makes a child more responsible, helps him to manage time and to have positive thinking. Kids who are part of a team, learn to work together and handle problems collectively. To develop their psychological, social and physical skills, IHS provides a platform where the students can showcase their skills in music, skating and sports classes.
