IMPERIAL HERITAGE SCHOOL, SEC-102, GURUGRAM
MONTHLY PLANNER FOR NOVEMBER
GRADE XII SCIENCE (2026-2027)

"The mind is not a vessel to be filled, but a fire to be kindled." — Plutarch

Dear Parents,
Greetings!

With the successful completion of Term-I, we have stepped into Term-II. The month of October was full of joyful learning and festivities. Let us welcome November with zeal. We expect the same support from you for Term II as we move forward towards the Board Examination. Let this new month bring great miracles, new adventures, and incredible experiences for you.

Examinations are not just a test of memory, but a reflection of consistent learning and understanding. They help students assess their progress and identify areas for improvement. The **Term 1 PTM** was conducted successfully on 31st October, providing a valuable platform for parents and teachers to discuss each student's performance.

Term I Result on ERP: Term I results were published on the ERP system on 22nd October, allowing students and parents to review academic performance. This transparency helped in identifying areas of improvement and planning for future academic goals.

The month of October ushers in the festive season and the spirit of caring and sharing. To express our love and gratitude to the members of society by sharing and caring for them, the school organised a **Donation Drive** for the old and destitute of Earth Saviours Foundation. The students and the teachers generously donated to this noble cause.

As part of the Caring and Sharing Week, a joyful **Potluck** was conducted where students shared homemade dishes, celebrating the values of kindness, cooperation, and sharing.

In **Biology,** students performed DNA extraction from plant tissues of spinach, onion and banana, exploring the application of biotechnology in isolating genetic material. They learned how biological membranes can be disrupted to release DNA from plant cells. The activity helped students understand the isolation of DNA from living cells and its significance in biotechnological applications. Through this hands-on experiment, they developed practical skills and gained an appreciation of the role of DNA in heredity and modern biotechnology.

In **Chemistry** - The salt analysis practical was conducted in the Chemistry laboratory, where students performed qualitative tests to identify the acidic and basic radicals present in the given salt. The activity helped students develop practical skills, understand chemical reactions, and strengthen their concepts of qualitative analysis.

This month, we celebrated the value of **Gratitude**—the practice of appreciating the kindness and opportunities we receive and giving back to our community. As part of this month's theme, students were encouraged to donate to support those in need. This is an opportunity for us to express our gratitude by helping others who may be going through challenging times.

IHS–Dongpae Middle School Cultural Exchange Programme

Imperial Heritage School, Gurugram, welcomed a delegation from its partner institution, Dongpae Middle School, South Korea, from 5 to 11 October 2026, strengthening their longstanding educational partnership. The seven-day programme featured engaging workshops in knife painting, quilling, pottery, robotics and Hindi, along with traditional Indian cooking, soccer and games such as Pittu and Stapu. The exchange provided valuable opportunities for cultural learning, meaningful interactions and lasting friendships, fostering greater cross-cultural understanding among students and teachers.

IHS News – Achievements and Accolades

Imperial Heritage School continues to celebrate the remarkable achievements of its students across sports and academics. Their talent, dedication and perseverance have brought laurels to the school, making the entire IHS family proud.
