IMPERIAL HERITAGE SCHOOL, SECTOR-102, GURUGRAM

MONTHLY PLANNER FOR NOVEMBER
LKG (2026-2027)

"You've got to do your own growing, no matter how tall your grandfather was."
– Irish Proverb

Dear Parents,

Greetings!!

The month of November brings a pleasant change in the weather, with cool breezes and the beginning of winter. After the excitement of the festival season, children will return to school with fresh energy and enthusiasm. November will be a month filled with learning, fun, and creativity. Students will take part in various classroom and outdoor activities that help them grow in confidence and skills.

The joyful celebration of festivals, the month of October brought a sense of renewed energy and excitement among the children. They returned to school with happy faces, sharing their festive experiences with friends and teachers. The post-festival atmosphere was filled with enthusiasm as students settled back into their learning routine. Various classroom activities encouraged creativity, teamwork, and participation, helping children reconnect with their studies while still carrying the festive cheer in their hearts.

The children enjoyed exploring the letters **Mm, Nn, and Oo** through a variety of engaging and hands-on activities. They learned the correct formation of each letter by tracing, writing in sand, and practising on worksheets, which helped strengthen their fine motor skills. The children also explored the sounds of these letters and associated them with familiar words such as M for Mango, Moon, and Monkey; N for Nest, Nose, and Net; and O for Orange, Owl, and Octopus. To make learning more exciting, fun-filled art and craft activities were organized, allowing the children to express their creativity while reinforcing letter recognition. Through rhymes, stories, picture cards, and phonics games, they practised identifying the letters, recognizing their sounds, and connecting them with everyday objects. These interactive activities made learning enjoyable and meaningful, helping the children develop confidence in letter recognition, pronunciation, and early phonics skills. The enthusiasm and creativity displayed by the children made this learning experience truly delightful.

This month, children were introduced to numbers **23 to 30** under the concept of Tens and Ones. They learned to understand that two-digit numbers are made up of groups of tens and ones through fun and interactive activities like using ice-cream sticks, beads, abacus and blocks for counting. This hands-on learning helped them visualize numbers and strengthen their early place value understanding.

Under the Pre-Math concept – **Empty and Ful**l, children explored the difference between empty and full through fun, hands-on activities. By observing and comparing containers filled with different objects, they developed an understanding of the concept through playful exploration and learning by doing. They also enjoyed identifying and sorting objects based on whether they were empty or full, making learning fun and meaningful.

The shape of the month was the **Star,** which fascinated the children. They learned to identify and trace the star shape and created beautiful star crafts using glitter, paper, and colours. These activities enhanced their fine motor skills and creativity while helping them recognize shapes in their surroundings. Overall, the month was filled with joyful learning experiences that made math fun, engaging, and meaningful for the children.

Children celebrated **Gandhi Jayanti** by learning about the life and teachings of Mahatma Gandhi, lovingly remembered as Bapu. They explored the values he believed in, such as truth, non-violence, honesty, kindness, and simplicity. Through engaging classroom discussions, children understood the importance of speaking the truth, helping others, respecting everyone, and resolving conflicts peacefully. As part of the celebration, they created a beautiful Shadow of Bapu craft, expressing their creativity while remembering the Father of the Nation. This meaningful activity helped children appreciate Bapu's timeless values and inspired them to practise kindness, honesty, and peace in their everyday lives.

The theme of the month was "**Celebration,**" which introduced children to the joy, diversity, and significance of festivals in India. They explored different types of festivals, including national, religious, and harvest festivals, and learned how these special occasions bring people together in love, happiness, and unity. Through engaging stories, videos, and classroom discussions, children discovered various ways of celebrating festivals, such as decorating homes, lighting diyas, singing songs, wearing traditional clothes, preparing festive delicacies, and sharing sweets with family and friends. They also learned about festivals celebrated by different religions, such as Diwali, Eid, Christmas, Gurpurab, and Buddha Purnima, appreciating the unique traditions and customs associated with each. Discussions on festivals like Baisakhi, Pongal, Danidiya and Makar Sankranti helped them understand the importance of harvest festivals in expressing gratitude for nature's bounty. These joyful learning experiences encouraged children to respect different cultures and traditions while understanding the values of sharing, caring, togetherness, and harmony. Through this theme, they learned that although festivals may be celebrated in different ways, they all spread happiness and strengthen the bonds of love and friendship. They also learned about the **special food** and **traditional clothes** associated with various festivals, which helped them appreciate the rich cultural diversity of our country. As part of the **theme craft**, children enjoyed different festivals that reflected the festive spirit.

The month of October was filled with a variety of engaging and joyful activities that kept children motivated and enthusiastic. We celebrated **World Post Office Day** by setting up a post office in the school, where children learned how mail and postcards are sent and explored the various roles of postal workers. This hands-on experience helped them understand the importance of communication in everyday life. The **Colour Burst – Orange** activity encouraged children to explore shades, mix colors, and express their creativity.

During **Caring and Sharing Week**, children participated in thoughtful activities such as making **Thank You Crafts for Support Staff** and **Sharing My Toy Activity**, fostering empathy, kindness, and social responsibility. As part of Sharing and Caring Week, our students came together with open hearts for a **Donation Drive**, contributing household essentials, groceries, and daily-use items to support those in need.

The month concluded with **Halloween Celebrations (Bagless Day)**, filled with fun, laughter, and creativity. Children dressed up in exciting costumes and participated in a variety of fun games and engaging activities that added a spooky twist to the festivities. They enjoyed an exciting spooky story time, listening to mysterious tales that sparked their imagination and curiosity. The celebration also provided opportunities for children to express themselves,

explore their creativity, and interact with their peers in a joyful environment. Through these delightful experiences, children enjoyed learning beyond textbooks, building confidence, and creating wonderful memories with their friends. The day ended on a cheerful note, leaving everyone with smiles, laughter, and a memorable Halloween experience!

The value of the month was **Gratitude**, which helped children understand the importance of being thankful for the people, things, and experiences in their lives. Through various activities, children learned to express appreciation towards their teachers, friends, family, and support staff. Activities like making Thank You Crafts, sharing kind words, and participating in Caring and Sharing Week encouraged children to recognize and acknowledge the efforts of others. Practicing gratitude not only nurtured positive feelings but also promoted empathy, kindness, and respect among children. By the end of the month, children were able to demonstrate simple acts of thankfulness, helping them develop a caring and considerate attitude.

CBSE Parenting Calendar:

Parenting today is both deeply rewarding and increasingly complex. As children navigate a fast-changing world shaped by new learning environments, evolving expectations, and diverse influences, the role of parents becomes even more significant in providing stability, guidance, and emotional grounding. A child's development is most meaningful when supported consistently across both home and school. Recognising this, the CBSE Parenting Calendar for the academic session 2026- 2027 continues to build on its vision of strengthening the home–school partnership as a cornerstone of student success.

IHS NEWS

IHS-Dongpae Middle School Cultural Exchange Programme, Imperial Heritage School, Gurugram, welcomed a delegation from its partner institution,Dongpae Middle School, South Korea, from 5 to 11 October 2026, strengthening their longstanding educational partnership. The seven-day programme featured engaging workshops in knife painting, quilling, pottery, robotics and Hindi, along with traditional Indian cooking,soccer and games such as Pittu and Stapu. The exchange provided valuable opportunities for cultural learning, meaningful interactions and lasting friendships, fostering greater cross-cultural understanding among students and teachers.
